

WESTERVELT LODGE
ALICEVILLE, ALABAMA

Turkey Season

March 15 - April 30, 2012

If you're looking for the best in Eastern wild turkey hunting, you'll find it at Westervelt Lodge. Our 10,000 contiguous acres of Tombigbee River bottom and mixed pine/hardwood stands are managed exclusively for wild turkey and white-tailed deer. Our intensively managed upland areas and miles of roadside management zones provide excellent nesting and brood habitat that keeps our turkey numbers on the rise year after year.

Depending on group size, each guest has anywhere from 800 to 1000 acres, ensuring plenty of room to set their sights on a gobbling bird. Westervelt turkey hunts are one-on-one guided by our veteran staff. Our guides are expert turkey hunters with the skills necessary to help the beginning turkey hunter be successful, or provide landscape knowledge to the seasoned hunter who prefers going head-to-head with one of our longbeards.

One gobbler per day bag limit. No Jakes.
